FACTS YOU SHOULD KNOW

- From the 16th to the 19th century, about **12.5 million Africans** were forced across the Atlantic (by all European slave-trading nations together).
- In the 18th century, **Britain was the leading slave-trading nation**; ports such as **Liverpool, Bristol and London** grew rich.
- Enslaved people **resisted**, e.g. in the Baptist War in Jamaica (1831–32).
- **1807**: the slave trade is abolished. **1833**: the Slavery Abolition Act ends slavery (from 1834).
- Until **1838**, the freed people had to keep working without pay as "apprentices".
- The **slave owners** received **£20 million** in compensation (about 40% of government spending); the loan was only paid off in **2015**. The enslaved received **nothing**.

Symbols of Empire (Warm-up-Bilder, S. 180)

HINTERGRUND ZU DEN VIDEO-FRAGEN (S. 180)

Das Video kenne ich nicht. Das hier ist allgemeines Wissen zu den Fragen; die genauen Antworten im Video können abweichen.

- **Spain and Portugal** were the leading colonial powers of the 15th and 16th centuries and divided the "New World" between them (Treaty of Tordesillas, 1494).
- **Francis Drake** (for Elizabeth I): officially a voyage of exploration (around the world, 1577–80), but also raids on Spanish treasure ships and colonies.
- First permanent English settlement: **Jamestown, Virginia (1607)**; an earlier colony at Roanoke (1585) failed.
- Caribbean riches: **sugar** (also tobacco) from plantations worked by enslaved Africans.
- India as the **"jewel in the crown"**: huge resources (cotton, tea, spices), an enormous market and population (soldiers for the army), strategic importance for trade.
- **"Imperial Century"**: 1815–1914.
- After 1945, most colonies became **independent**; the handover of **Hong Kong** to China (1997) is often seen as the end of the Empire.
- **Forced migration**: enslaved Africans, indentured labourers from India, convicts sent to Australia.
- **Partition of India (1947)**: two states, India and Pakistan; more than 10 million refugees, hundreds of thousands killed.

- Should Britain officially **apologise**?
- Should it pay **reparations**?
- How should schools and museums **teach** the Empire?
- What should happen to **statues** and buildings named after slave traders?
- Was the Empire a **good or a bad** thing?
- Does the past create **responsibilities** today?

Typische Aussagen in Texten und die Gegenargumente

YOU MAY READ …	… AND THIS IS THE COUNTER-ARGUMENT
"Britain should be proud that it abolished slavery."	Abolition only came after Britain had profited from slavery for centuries – and the slave owners, not the enslaved, were compensated (Text 1, ll. 39–44).
"The Empire brought railways, schools, democracy and the rule of law."	Railways were built to transport resources out of the colonies; the Empire also brought famines (Bengal, 1943), massacres (Amritsar, 1919) and violent partitions (India, 1947).
"We should not judge the past by today's moral standards."	Many people opposed slavery at the time – abolitionists and, above all, the enslaved themselves, who resisted and rebelled.
"People today are not guilty of what their ancestors did."	It is not about personal guilt but about responsibility: the wealth and the inequalities created then still exist today (Text 1, ll. 45–53).
"Britain's wealth was built on slavery and colonial exploitation."	Slavery was not the only source of Britain's wealth (coal, technology and trade mattered too), but its profits clearly helped ports, banks and insurers to grow.
"Reparations are impossible: who would pay, who would receive the money, and how much?"	Reparations can take many forms: a formal apology, debt relief, investment in health and education (the CARICOM 10-point plan of Caribbean states).
"Removing statues means erasing history."	Statues honour people, museums explain them. The statue of the slave trader Edward Colston, toppled in Bristol in 2020, is now shown in a museum with its history.
"Teaching the dark side of the Empire is unpatriotic."	Knowing the whole story makes a nation more honest and explains today's society, e.g. why so many people from the former colonies live in Britain.

`regret, but look forward`	British governments, King Charles III (expressed "sorrow and regret", but no official apology)	*We must learn from the past, but focus on partnership and development. · Reparations are not the answer.*

`be proud of British history`	many conservative politicians, right-leaning papers (e.g. The Daily Telegraph, the Daily Mail), groups against "woke" history	*The Empire also did a lot of good.* · *Britain led the fight against slavery.* · *Don't rewrite history.*

Should Britain apologise and pay reparations?

YES, BECAUSE …	NO, BECAUSE …
an apology would officially acknowledge a crime against humanity	today's Britons are not personally responsible
Britain still benefits from wealth made through slavery	it is impossible to calculate a fair amount
slave owners were compensated, the victims never were	it could lead to endless legal claims
former colonies still suffer from poverty and debt	development aid and trade already help
other countries have apologised (e.g. the Netherlands, 2022/23)	it might divide society instead of uniting it

Was the Empire good or bad? A balanced view

OFTEN NAMED AS POSITIVE	NEGATIVE CONSEQUENCES
railways, roads, ports	built mainly to exploit resources
English as a world language	local languages and cultures suppressed
parliaments, courts, the rule of law	no democracy for the colonised for most of the time
schools, universities, hospitals	slavery, forced labour, racism
trade and global connections	famines, massacres, the violence of Partition
the Commonwealth	artificial borders, poverty, inequality to this day

3 Buchtext 1: "The Observer view on Britain's role in the slave trade"

The Guardian (Observer), 25 September 2016 · S. 181–182 · Zeilenangaben wie im Buch

Text type	**editorial** (leading article): "The Observer view" is the official opinion of the newspaper. The Observer (founded 1791, centre-left) was then the Sunday sister paper of The Guardian, which is why the book names The Guardian as the source.
Topic	Britain's central role in the transatlantic slave trade and the fact that the country has never fully acknowledged it
Thesis	*"Nearly two centuries after slavery was abolished, this country has still not fully acknowledged the shameful part it played. We must delay no longer." (ll. 1–2)*
Aim	to make British readers aware of their country's role, to criticise political leaders for ignoring it, and to demand that slavery becomes part of Britain's national consciousness
Tone	serious, critical and urgent; morally engaged
Ex. 5 (S. 181)	**c** – Britain must "feature [its true role] more prominently in our collective history and our national consciousness" (ll. 45–46). Not **a**: the author explicitly does not want leaders to "constantly apologise" (l. 47). Not **b**: the text says Britain has *not* acknowledged enough.

Der Text Absatz für Absatz

LINES	WHAT THE AUTHOR SAYS	KEY QUOTE	WHY IT MATTERS
3–9	Michelle Obama's speech shows how strongly slavery is part of the US national consciousness.	"I wake up every morning in a house that was built by slaves." (ll. 5–6)	contrast: the US remembers, Britain does not
10–19	British leaders hardly mention Britain's dominant role in the slave trade, although slave traders made huge profits and the wealth is still visible in modern Britain.	"Not so in Britain." (l. 10) · "5.5 million African slaves" (l. 12) · "20,000 British slave owners" (l. 15)	proves the scale with facts; the legacy is close to home: architecture, firms (Greene King, Royal and Sun Alliance), MPs
20–25	The wealth came at a terrible human cost: slaves were shackled, shipped in appalling conditions and treated with cruelty; countless lives were lost.	"The extraction of this wealth came at terrible cost." (l. 20)	creates empathy with the victims
26–31	The former colonies still suffer: after abolition the former slaves lived in extreme poverty; in Jamaica 80% could not read and write properly in 1962. Britain, however, kept flourishing.	"The scars are still visible across Britain's former colonies." (l. 26)	contrast between the poverty of the colonies and Britain's wealth
32–44	Because slavery took place "on distant shores", Britain could hide its role. Blair addressed it late, Cameron told Jamaica to "move on". Slave owners were compensated; the slaves had to work four more years unpaid.	"populations Britain has long washed its hands of" (ll. 33–34) · "even the act of abolition was itself a terrible injustice" (ll. 39–40)	criticises politicians by name; shows the injustice of abolition itself
45–49	Britain's true role must become part of the national consciousness – not for constant apologies or shame, but to understand Britain's role in the world today.	"not so that our political leaders should constantly apologise [...] but so that we view Britain's role in the modern world in the context of our history" (ll. 46–49)	the central demand; anticipates the objection "endless guilt"
50–53	Britain's international responsibilities follow from the structural inequalities between global north and south, which Britain helped to create.	"in the past Britain has helped create those very inequalities" (ll. 52–53)	links past and present

LINES	WHAT THE AUTHOR SAYS	KEY QUOTE	WHY IT MATTERS
54–58	In debates about aid, migration and refugees, Britain presents itself as a generous helper instead of a country that owes something.	"a benevolent benefactor rather than a country with a burden of debt" (ll. 56–57) · "a sanitised version of our history" (l. 58)	memorable conclusion; criticises Britain's self-image

DIE POSITION DER AUTORIN IN DREI SÄTZEN (SO KANNST DU SIE FORMULIEREN)

- The author criticises that Britain has never fully acknowledged its central role in the transatlantic slave trade.
- She argues that the wealth created by slavery still shapes modern Britain, while the former colonies still suffer from its consequences.
- She does not demand constant apologies or collective guilt, but wants Britain's role to become part of its national consciousness so that the country understands its responsibilities in today's world.

Ex. 6: Outline the suffering and effects of slavery

PERIOD	SUFFERING AND EFFECTS (WITH LINES)
During colonial times	Africans were shackled and transported in appalling conditions on disease-ridden ships (ll. 20–21); they were forced to work on plantations in terrible conditions (ll. 12–14) and suffered unspeakable physical and emotional cruelty (ll. 22–23); countless lives were lost (ll. 23–25).
After abolition	Former slaves were left in abject poverty (ll. 26–27); they had to work four more years without pay to compensate their owners, who received £16–17 billion in today's money (ll. 40–44); in Jamaica 80% of the population lacked functional literacy at independence in 1962 (ll. 28–29).
In the present day	No former colony has recovered from the poverty (l. 27); the structural inequalities between global north and south go back partly to Britain (ll. 51–53); at the same time, the wealth from slavery still benefits Britain, e.g. its architecture, businesses and MPs' family fortunes (ll. 15–19, 29–31); Britain's role is hardly part of its national memory (ll. 32–35).

MUSTERLÖSUNG (OUTLINE: EIGENE WORTE, ZEILENANGABEN, KEINE LANGEN ZITATE)

The article outlines the suffering caused by British slavery and its long-lasting effects. During colonial times, millions of Africans were chained and shipped to the Caribbean in terrible conditions, and many died on the way. On the plantations they had to work under brutal conditions and were treated with extreme cruelty (cf. ll. 12–14, 20–25). After abolition, the former slaves were left in extreme poverty and even had to work for their former owners for four more years without pay, while the owners received enormous compensation from the government (cf. ll. 26–27, 39–44). Today the consequences are still visible: the former colonies have never recovered, as Jamaica's low literacy rate at independence shows (cf. ll. 26–29), and Britain helped to create the inequalities between north and south (cf. ll. 50–53). At the same time, the wealth made through slavery continues to benefit modern Britain (cf. ll. 15–19, 29–31).

Ex. 7: Wie die Autorin ihre Meinung inhaltlich aufbaut

She opens with a **contrast**: the US remembers slavery (Michelle Obama), Britain does not (ll. 3–10).	She **names political leaders** and criticises them: Blair only addressed it late, Cameron told Jamaica to "move on" (ll. 35–39).
She proves Britain's role with **facts and figures**: 5.5 million slaves, 20,000 slave owners, £16–17 bn, 40% of government spending, 80% illiteracy (ll. 12–15, 28, 41–42).	She **anticipates objections**: no constant apologies, no shame for descendants (ll. 46–48).
She shows the legacy **close to home**: Georgian buildings, well-known companies, MPs (ll. 16–19).	She **links history to current politics**: aid, migration, refugee policy, debt (ll. 50–58).
She describes the **suffering vividly** to create empathy (ll. 20–25).	She uses "**we**", "**our**", "**this country**" to address British readers and ends with a memorable final sentence (l. 58).

4 Cartoon und Zitat (Writing, Ex. 10, S. 183)

Comment on the quote and on how it relates to the cartoon and the article.

THE CARTOON

- **Description**: an 18th-century gentleman, probably **Thomas Jefferson**, sits at his writing desk with a quill and says "All men are created equal" – the famous words of the US Declaration of Independence (1776). His feet rest on a **chained Black man**, who is used as a footstool.
- **Message**: the **hypocrisy** of the founding fathers: they proclaimed freedom and equality while their wealth and comfort depended on enslaved people. Jefferson himself enslaved more than 600 people during his life.
- Equality was only meant for **white men**.

THE QUOTE (KEHINDE ANDREWS)

"Slavery was an important part of the development of Britain ... You cannot understand the situation for black people in Britain without understanding these roots. The wealth generated from slavery is still with us, as is the poverty from centuries of exploitation."

- slavery is **not a side issue** but central to Britain's history
- Black British life today has **historical roots** (Empire, migration, racism)
- its effects are still present: **wealth** in Britain, **poverty** in the former colonies

Was Cartoon, Zitat und Artikel verbindet

ASPECT	CARTOON	QUOTE	ARTICLE
Main idea	ideals of equality vs. the reality of slavery	slavery shaped Britain and still matters	Britain has not acknowledged its role
Wealth	comfort built on enslaved people	"the wealth generated from slavery is still with us"	Georgian architecture, firms, MPs (ll. 16–19)
Self-image	the nation's founding myth hides slavery	Britain's story is incomplete without slavery	"a sanitised version of our history" (l. 58)
Consequences	inequality built into the system	"the poverty from centuries of exploitation"	structural inequalities north/south (ll. 50–53)

Arguments to support the quote

- The profits of slavery helped British ports, banks and insurers (Text 1, ll. 15–19); the compensation loan was only paid off in 2015.
- Former colonies still struggle with poverty and debt (Text 1, ll. 26–29).
- Many Black Britons are descendants of people from the Caribbean colonies (Windrush generation), so their story begins with the Empire.
- Racism today has roots in the racist ideas used to justify slavery.

Arguments to qualify it

- Slavery was one factor among many in Britain's development (industry, coal, trade).
- Black British people have very different backgrounds (Caribbean, African, mixed); not every story is linked to slavery.
- Remembering should not reduce Black Britons to victims: stories of resistance, success and contribution matter too.
- Acknowledgement should lead to action (education, fair trade, debt relief), not only to symbolic words.

MUSTERSÄTZE FÜR DEINEN KOMMENTAR

- Both the cartoon and Kehinde Andrews' statement criticise a nation's flattering image of itself.
- Just as the founding fathers spoke of equality while owning slaves, Britain likes to remember the abolition of slavery rather than its profits from it.
- Acknowledging this past does not mean feeling guilty; it means understanding where today's inequalities come from.
- All in all, I agree with Andrews that Britain cannot understand its present without facing its colonial past.

5 British identity: Hintergrundwissen

Begriffe, die in Texten zur Identität vorkommen

multiculturalism	different cultures live side by side and keep their traditions; the state recognises this diversity (image: "salad bowl")
assimilation	minorities give up their own culture and adopt the majority culture (image: "melting pot")
integration	minorities take part in society (language, education, work) and keep parts of their culture; a two-way process
social cohesion	the feeling that a society holds together
civic vs. ethnic identity	being British because you share values and citizenship vs. because of ancestry and skin colour
hyphenated identity	having more than one identity, e.g. British-Nigerian, British Asian, Black British
the "cricket test"	Conservative politician Norman Tebbit (1990): immigrants should support England, not their family's country of origin, in cricket; criticised as an unfair loyalty test
"British values"	taught in schools since 2014: democracy, the rule of law, individual liberty, mutual respect and tolerance
tokenism	including a few people from minorities to look diverse without real change

institutional racism	racism built into institutions and structures, not just individual prejudice
conditional belonging	being accepted as British only as long as you are successful

Typische Aussagen in Texten und die Gegenargumente

YOU MAY READ …	… AND THIS IS THE COUNTER-ARGUMENT
"Stars like Raducanu, Saka or Rashford show that diversity is Britain's strength."	Exceptional success stories say little about the everyday experiences of ordinary migrants (Katwala, Text 2, ll. 49–50).
"Celebrating minority stars sends a positive message to young people."	It turns individuals into symbols and puts enormous pressure on them (Grant, Text 2, ll. 40–44).
"Britain is one of the most successful multicultural societies in the world."	Racism still exists, e.g. the online abuse after the Euro 2020 final or the Windrush scandal.
"Minority stars are only accepted as British as long as they win."	After the Euro 2020 final, many fans showed solidarity, e.g. by covering Rashford's damaged mural with messages of support.
"You can only be loyal to one country." (cf. the "cricket test")	Many Britons have several identities – e.g. British-Nigerian or Londoner – and experience this as a "cultural advantage" (Michael Andrew).
"Integration is happening quietly and inexorably." (Grant, Text 2, ll. 55–56)	Integration is not automatic; it needs equal opportunities, which not everyone has yet.
"Immigration puts too much pressure on housing, jobs and public services." (typical populist claim)	Migrants also keep public services running, e.g. many doctors and nurses in the NHS come from abroad.
"Being British means sharing values such as democracy, tolerance and the rule of law."	For some people, Britishness is still linked to ancestry and skin colour, which excludes many British citizens.

9–12	After many diverse sports stars in 2021, she is hailed as the face of a "new proudly diverse era".	Kye Whyte, Emily Campbell, Marcus Rashford, Bukayo Saka (ll. 10–11)
13–16	Sadiq Khan says she reflects "London's story" of diversity.	"you can achieve anything" (l. 16)
17–29	Everyone congratulates her, even Farage, who is criticised for his earlier comments on Romanians; Lineker mocks him.	"eye-watering" crime statistics (l. 23); Lineker's swipe about her £1.8m prize money (ll. 27–29)
30–37	Chris Grant welcomes the praise from media that are hostile to asylum seekers: her story shows the reality of Britishness.	"such a normal story in this country, and one that we should be proud of" (l. 37)

LINES	WHAT THE TEXT SAYS	KEY QUOTE / DETAIL

53–58	Grant is most encouraged by the diverse families at her tennis club: integration is happening anyway.	"That's why the Farage thing ultimately becomes irrelevant" (l. 56)

Ex. 4: Positive aspects of holding up multicultural stars

- They are the face of a **"new proudly diverse era"** (l. 12).
- They show that a mixed heritage is **"a normal story in this country"** to be proud of (ll. 35–37).
- They **encourage young people**: with hard work and help "you can achieve anything" (Khan, ll. 15–16).
- They give **a positive image of migration and integration** (Katwala, ll. 51–52).
- They expose the **"delusion"** of anti-immigration voices (Grant, ll. 34–35).
- They can be **figureheads** for an integration that is already happening (ll. 55–58).

Pitfalls (Gegenseite im Text)

- **pressure** on one young person who never asked to be a symbol (ll. 40–44)
- her **mental health** was already under public scrutiny (ll. 41–42)
- exceptional stories hide the **broader questions** of integration and equal opportunities (ll. 49–50)
- danger of using her as a **"gotcha" argument** in political debates (ll. 47–48)
- **hypocrisy**: people who attack migrants also celebrate her (Farage, ll. 20–25)

MUSTERLÖSUNG EX. 4 (OUTLINE)

The article presents several positive aspects of holding up Emma Raducanu and other multicultural stars as examples of British diversity. They are seen as the face of a new, proudly diverse era in British sport (cf. ll. 9–12), and their stories show that having a mixed heritage is normal in Britain and something to be proud of (cf. ll. 35–37). According to Sadiq Khan, they send the encouraging message that anyone can succeed with hard work and support (cf. ll. 15–16). Moreover, they create a popular image of the positive contribution of migration and integration (cf. ll. 51–52) and expose the contradictions of anti-immigration voices (cf. ll. 30–35). Finally, they can act as figureheads for an integration that is already taking place quietly, as the images from her diverse tennis club show (cf. ll. 53–58).

EX. 5: WAS DER ERWARTUNGSHORIZONT INHALTLICH HERAUSARBEITET (KEY 5)

- The article presents **both sides** announced in the sub-headline in **separate paragraphs**: from Khan's enthusiasm (ll. 13–16) to the cautious voices of Grant (l. 40) and Katwala (ll. 49–50).
- **Direct speech** shows the complexity of the debate: Farage congratulates her (l. 20) but has made discriminatory remarks about Romanians (ll. 23–25).
- **Humour** counters Farage: Lineker's swipe (ll. 26–28).
- Grant's **nuanced view**: even anti-asylum media celebrate her, which shows "the delusion" in their other statements (ll. 34–35).
- Positive views come with a **note of caution**: "as long as it's not overplayed" (l. 52).
- The text **ends positively**: a diverse tennis club shows the progress of integration (ll. 53–58).

Ex. 7: Argumente für die Schreibaufgaben

7A · "WE HAVE TO BE MINDFUL ABOUT WHAT WE PLACE ON THE SHOULDERS OF INDIVIDUALS."

Agree:

- No individual can represent millions of people or a whole political debate.
- Young stars are under enormous pressure anyway (Raducanu withdrew from Wimbledon, ll. 41–42).
- Acceptance becomes conditional: celebrated when winning, abused when losing (Saka, Rashford, Sancho after the Euro 2020 final).
- Symbolic heroes can hide structural problems (Katwala).

But:

- Role models matter: young people from minorities need to see people like them succeed.
- Some stars choose to speak out, e.g. Marcus Rashford's campaign for free school meals or John Boyega's speech at a Black Lives Matter protest.
- So the key is choice: celebrate their success, but let them decide what they stand for.

7B · BLOG ENTRY ON FARAGE'S STATEMENT ABOUT ROMANIAN NEIGHBOURS

- **Generalisation**: he judges a whole nationality by crime statistics – this is a stereotype.
- **Hypocrisy**: he congratulates a half-Romanian champion but would not want Romanians next door (ll. 20–25).
- **Effects**: such statements spread prejudice and make migrants feel unwelcome.
- **Facts**: EU migrants (since 2014 also from Romania) work in care, health, construction and agriculture.
- **Humour as a weapon**: Lineker's swipe shows how absurd the fear is (ll. 27–28).
- **Call to action**: judge people as individuals; diversity is part of Britain's story (Grant, ll. 35–37).
